# NEW SmartWall PU Adhesive Bonding System

## PU700 JUWO Evolved SmartWall™ Construction Adhesive

JUWO Evolved SmartWall™ Construction Adhesive PU700 is all you need in one can, capable of bonding over 20sqm of JUWO Evolved SmartWall™ block in one can. PU700 massively saves on installation time and reduces waste significantly. PU700 is a great alternative to JUWO Evolved SmartWall™ thin coat mortar adhesive.

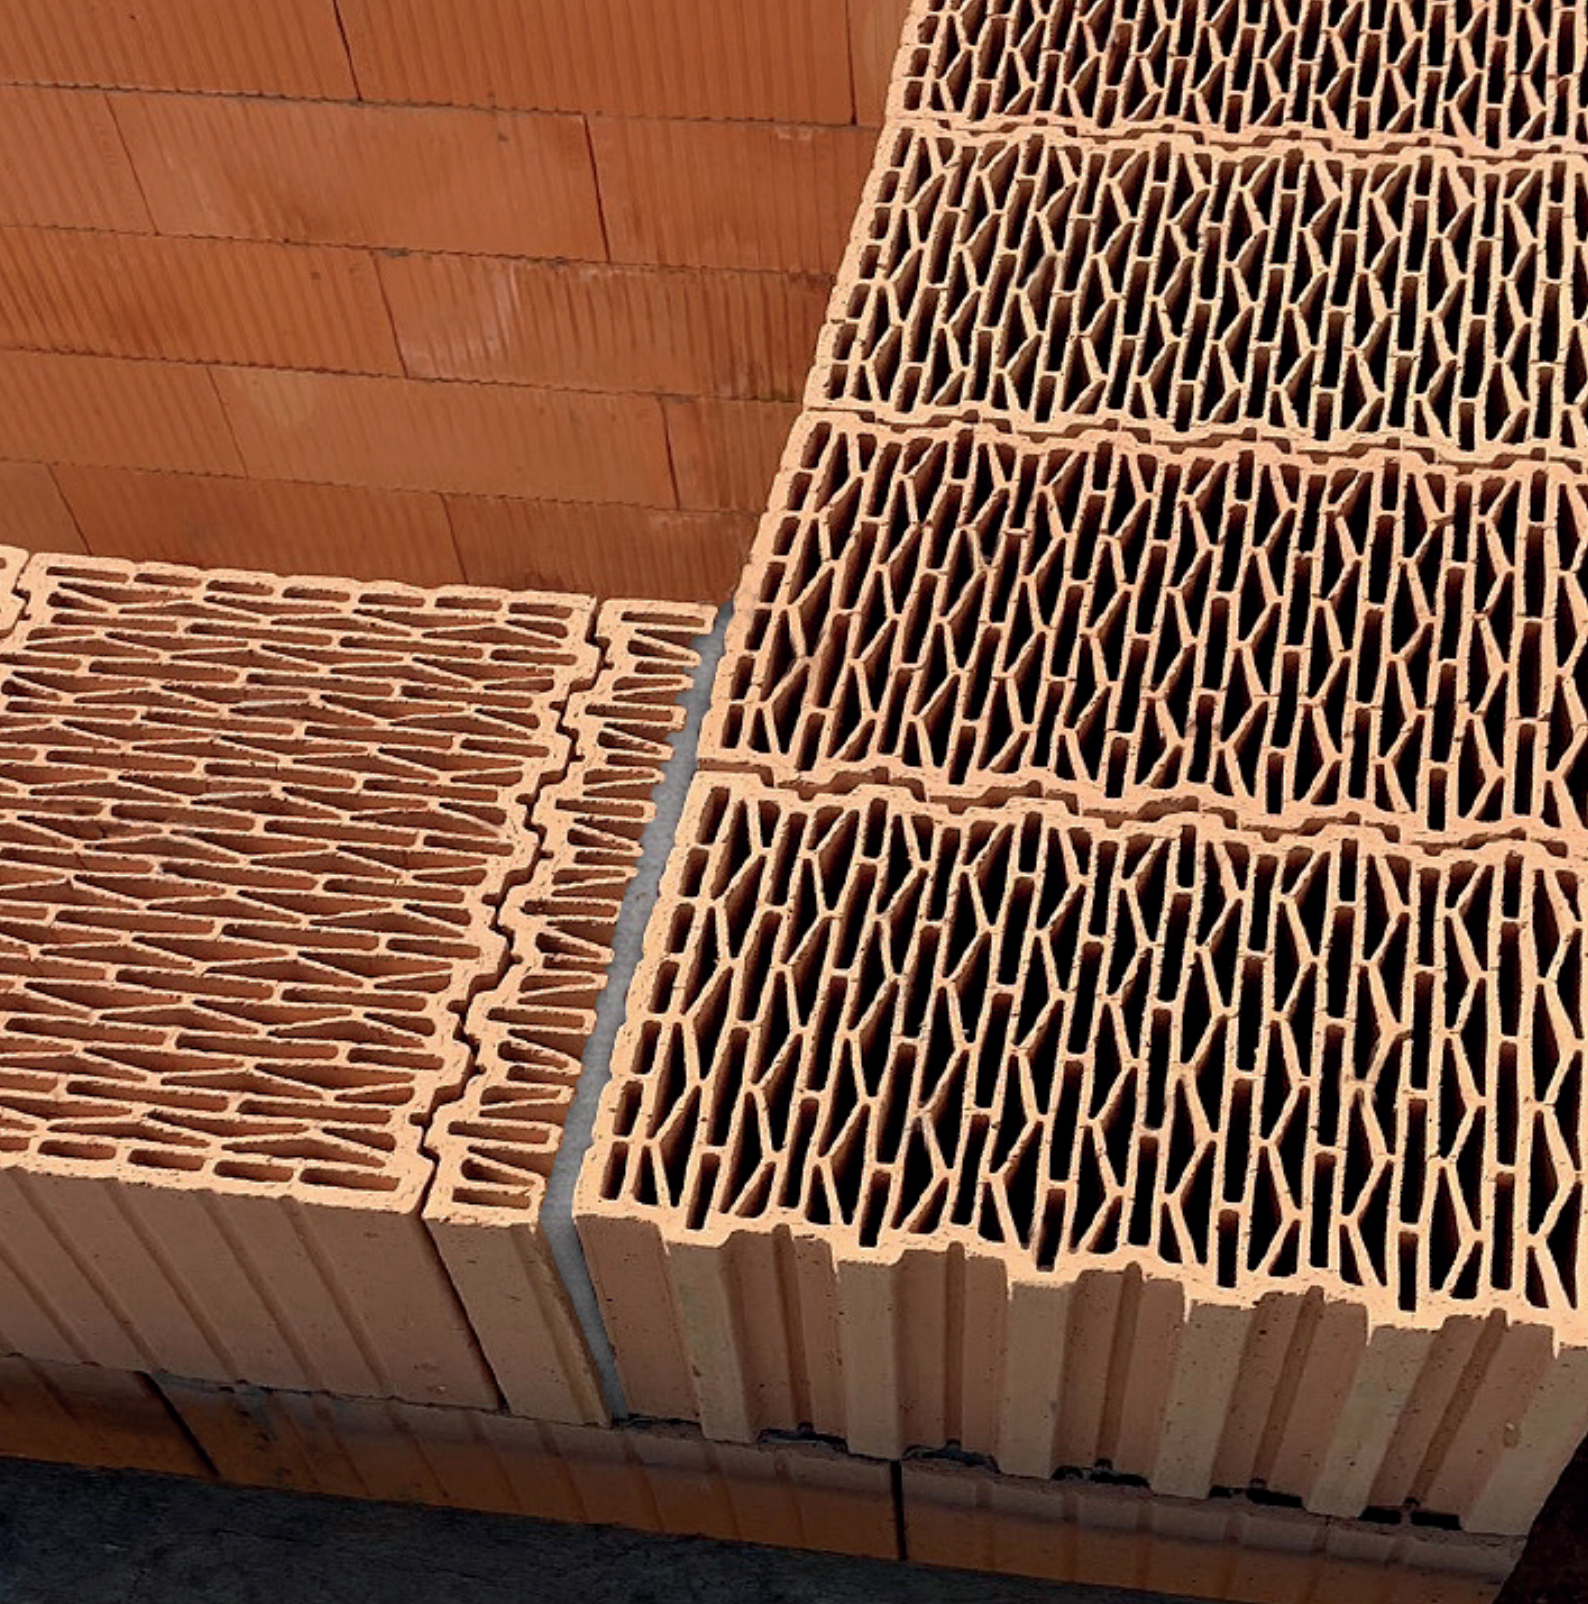

PU700 is also incredibly strong and can be used on all widths of JUWO Evolved SmartWall™ blocks, and can be supplied with a dedicated applicator for narrower width JUWO Evolved SmartWall™ blocks.

### The original, but even better - Everything else is a copy!

- Incredibly strong adhesive
- Bonds JUWO Evolved SmartWall™ Monolithic Clay blocks
- Rapid curing - handling of joint within 10 minutes
- Saves installation time
- Reduces waste
- No specialist tools required
- Less mess
- Excellent chemical resistance
- Suitable for indoor or outdoor use
